Title: **PROPOSED REVISED ANNUAL PROCUREMENT PLAN (APP) FOR FY 2025 OF THE PHILIPPINE STATE COLLEGE OF AERONAUTICS FUNDED THROUGH INTERNALLY GENERATED INCOME.**

Background:

The Annual Procurement Plan provides a roadmap for when and how procurement should occur throughout the year. The College ensures that all procurement activities aligns with its objectives, priorities, and available resources. It is more than just a list of items to procure—it is a planning, management, and control tool that promotes good governance, public trust, and effective service delivery.

On December 17, 2024, the PhilSCA Board of Trustees approved the College's Original Annual Procurement Plan during its 96th Regular Meeting, through Board Resolution No. 578, Series of 2024. A summary of the original APP is presented below:

CAMPUS	MAINTENANCE AND OTHER OPERATING EXPENSES (MOOE)	CAPITAL OUTLAY (CO)	TOTAL
Villamor	82,392,908.25	91,959,000.00	174,351,908.25
BAB-Palmayo	9,630,506.42	3,585,257.50	13,215,763.92
FAB	5,915,622.04	2,268,000.00	8,183,622.04
Mactan-Medellin	2,118,641.75	8,855,558.01	10,974,199.76
TOTAL	100,057,678.46	106,667,815.51	206,725,493.97

As part of its procurement monitoring and evaluation process, the College conducted a comprehensive review of its Original Project Procurement Management Plan (PPMP), Annual Procurement Plan (APP), and Program of Receipts and Expenditures (PRE) on May 15, 2025.

Following this review, the College decided to discontinue certain Programs, Activities, and Projects (PAPs) that were not successfully procured within their intended implementation period. In addition, unexpended balances from both discontinued and completed PAPs will be reprogrammed to support new initiatives aligned with institutional priorities.

Beyond the reallocation of unused funds, the College also identified additional sources of financing. This development prompted the proposal to revise the existing PPMP and PRE to reflect updated funding availability and procurement requirements. Consequently, the APP will be amended to ensure full alignment with the revised plans and to facilitate timely and efficient implementation of procurement activities.

These revisions aim to optimize the use of available resources, enhance procurement efficiency, and ensure the effective delivery of programs and services.
